### **Demand Booming for Employment Training Panel Funding Over \$19.8 Million Approved in a Variety of Industry Sectors**

SACRAMENTO – As California's unemployment rate continues to decrease employers are realizing the need for additional training for their new and existing workforce. At the Panel's monthly public meeting last Friday, ETP approved 93 contracts for over \$19.8 million to support workforce training in a variety of sectors throughout the state.

Manufacturing projects amounted to over \$6.8 million in training dollars, including \$1.1 million in employment training funds supporting aerospace and related projects. Training proposals in the construction industry were approved at \$3.9 million. Healthcare projects were also well represented, with nearly \$3 million approved for workforce training, and proposals from the services sector were approved at \$1.6 million.

Over one third of training proposals approved by the Panel will address the needs of small business and over half of these proposals support job creation. As a reflection of increased program marketing, over forty percent of approved projects were for first-time applicant businesses and other organizations new to the Employment Training Panel's program.

ETP is a state agency supported by both business and labor. It assists employers in strengthening their competitive edge in the economy by providing funds to partially off-set the costs of necessary job skills training. California's ETP is a performance-based program, providing funds for trainees who successfully complete training and are retained in good-paying jobs at or above a required wage base, for at least 90 days.

The program, funded by the Employment Training Tax paid by California employers, helps businesses remain competitive. Since its inception in 1983, the ETP program has provided approximately \$1.25 billion to train over 800,000 workers for more than 78,000 California companies. Employers match training funds awarded by ETP, making these projects true public-private partnerships. For more information about the program, please visit [www.etp.ca.gov](http://www.etp.ca.gov), or call 916-327-5368.
