

CNA to LVN (Nurse Training) Pilot Summary

- To address California's nursing shortage, on January 1, 2006 the Panel implemented a Pilot to fund licensed nurse training programs, training individuals who are currently working as nurse assistants or caregivers in a health facility and who are enrolled in an approved nurse training program to become Licensed Vocational Nurses (LVN).
- Trainees must be:
 - employed at the start of ETP-funded training by a for-profit hospital
 - employed as a nurse assistant or caregiver
 - enrolled in an accredited licensed nurse training program with an eligible employer, and have completed the first 800 hours of the training program prior to participating in ETP-funded training.
- Participating Employers must meet the definition of a health facility as defined in the Health and Safety Code, Section 1250 but are not required to meet the Panel's out-of-state competition eligibility requirements set forth in UI Code, Section 10200(1).

For further information regarding this Pilot program, please contact [ETP's Economic Development Unit](#), or call 916-327-5258.
