Employment Training Panel Awards \$11 Million in Job Training Funds
Homeboy Industries Receives Contract to Train 20 New Hires

SACRAMENTO – The State of California’s Employment Training Panel today approved more than \$11 million to train more than 12,880 workers throughout California. In total, the panel approved 42 training contracts aimed at supporting job creation and retention while increasing opportunities for workers through the development of job skills and training.

“These training contracts are significant economic development tools for businesses and their employees,” said Stewart Knox, the Employment Training Panel’s Executive Director. “Workers receive job training for well-paying jobs, and businesses can grow their workforce and revenue.”

One of the contracts approved today will give Homeboy Industries \$244,640 to train 80 current workers and 20 newly hired employees at its businesses in Los Angeles and Culver City.

Founded by Father Gregory Boyle in 1988, Homeboy Industries is a non-profit organization that offers job training and support services to formerly gang-involved and previously incarcerated individuals. According to Homeboy Industries, its social enterprise model of recruitment, hiring and training is recognized as the largest and most successful gang intervention and re-entry program in the world. Its business lines include Homeboy Bakery, Homeboy Grocery, Homegirl Café, Homeboy Diner at City Hall, Homeboy Industries Food Truck and Homeboy Silkscreen/Embroidery.

Homeboy Industries has grown its food manufacturing and silkscreen businesses, and workforce training can help its enterprises increase production and revenue, and allow the company to serve more clients in its social programs, including case management, mental health, education, tattoo removal, and employment services.

According to Father Gregory Boyle, S.J., of Homeboy Industries, “The funds provided by ETP will allow us to continue to provide hope, training, and support to formerly gang-involved and previously incarcerated men and women allowing them to redirect their lives and become contributing members of our community.”

The Employment Training Panel is the state’s premier program supporting job creation and retention through training. Since its creation in 1982, the panel reimburses employers for the costs of training existing workers, funds training for unemployed workers to re-enter the workforce, and helps to ensure California businesses have the skilled workers they need to remain competitive.
