

~ \$200K of Incremental Tax Revenue for Apprentice over 30-Year Career

Note:

1. After a 30-year career, a trade person will earn around 80K (57%) more than an average CA worker with both workers starting at 45K/year and each getting an annual 3% cost of living increase.
2. This same person will also have paid around 200K more in state taxes
