Turnover Information

Instructions to calculate turnover rate:

Divide the number of full-time employees at the training site(s) who separated from their jobs during the most recent calendar year (January - December) by the average number of total employees of the company at the same site(s) during the same time period.
Include all the following in the number of separations during the most recent calendar year:
- Quits (involuntary)
- Layoffs exceeding 30 days
- Discharges with or without cause

Exclude the following from the number of separations during the most recent calendar year:
- Voluntary quits
- Layoffs (30 days or less)
- Outside consultants and contractors
- Workers from temporary help agencies
- Workers on strike
- Seasonal workers
- Transfers to another company facility
- Permanent separations due to disability
- Retirements
- Deaths

* What is your California turnover rate % for full-time staff the last calendar year at the site(s) where training will take place?

> 21.00

* Turnover for each of the prior three calendar years (not an average. Use comma separated values for each year eg: 10.2, 3.5, 9) 🛈

* Most recent turnover since January 1 of the current calendar year 🛈

* Reasons for prior calendar year(s) high turnover (be specific)

* Remedies the company will initiate to reduce turnover (be specific) 🛈
