

Alliance Environmental Holdings LLC

ET23-0262

Regional Office: North Hollywood

 Contract Type: SEC

 Contract Attributes: Retraining

 Industry: Remediation Services

Company Background:

Alliance Environmental Holdings, LLC (Alliance) is an environmental remediation company that provides asbestos removal, mold remediation, demolition, duct and hood cleaning, structural pasteurization, trauma cleanup, and house cleanup/safety services.

Success Story:

Alliance was able to grow their company and enact some key strategic initiative with the assistance of ETP Funding. This enabled them to expand their team, accelerate product development, increase market reach, and strengthen their infrastructure. Because of this Alliance was able to see measurable progress towards their vision and mission as a company and advance their workforce training and skill development.

Quotes:

"Your [ETP] funding played a critical role in advancing our workforce training and skills development efforts, which are essential in an industry as specialized and safety-sensitive as environmental remediation. Thanks to your support, we were able to implement and expand several key programs... These training programs have not only elevated the skillset of our team but also improved our service delivery, reduced job-site incidents, and strengthened our reputation for safety and professionalism. Your investment in our people has been one of the most impactful contributions to our continued growth.

-Jeanette Terriquez, Director of Training
