Quotes

"The ETP funding has significantly strengthened our training model by allowing us to enhance hands-on instruction and integrate the Multi-Craft Core Curriculum (MC3), developed by the North America's Building Trades Unions (NABTU). This curriculum ensures that our graduates are equipped with industry-recognized skills, making them more competitive and job-ready for private sector employers.

Thanks to ETP support, we were able to offer essential safety certifications that are critical in the construction industry."
